22 teams and 44 athletes will participate in the second edition of the Riviera Water Bike Challenge on Sunday 17 June 2018 in Monaco, starting at 10 a.m.

Mixed teams of professional athletes and amateurs will compete on Schiller S1-C water bikes in a relay race covering 30 laps for a total distance of 20 km in front of the sun terrace on Monaco harbor’s sea wall. Merging modern design, technology, and engineering, these bikes are quiet, sustainable and 100% human powered.

The public will be able to watch the race from the sun terrace on Monaco harbor's sea wall where activities will be offered. Free admission.

This race fits the philosophy and values of the Princess Charlene of Monaco Foundation.

The funds raised will help finance the Foundation's actions.

About the Princess Charlene of Monaco Foundation:

Launched on 14 December 2012, the primary objective of the Princess Charlene of Monaco Foundation is to save lives by putting an end to drowning.

Its missions are to raise public awareness about the dangers of water, teach children preventive measures and teach them to swim.

A number of "Learn to Swim" and "Water Safety" programmes have been implemented around the world in order to fight against this scourge.

The Foundation's actions are also based on the values of sport such as discipline, self-respect and respect for others, determination and team spirit.

The "Sport and Education" programme uses sporting activities as tools to contribute to the well-being and development for all children no matter their origin or circumstances.

Since the Foundation's creation, more than 500,000 people, mainly children, benefited from these three programmes in 33 countries.
