### **About the Princess Charlene of Monaco Foundation**

The "Learn to Swim" and "Water Safety" programmes have been implemented around the world. These programmes are aimed in particular at children who are disadvantaged or at risk of drowning due to their environment.

The Foundation's actions are also based on the values of sport such as discipline and team spirit. The "Sport & Education" programme is based on sports activities in order to contribute to the well-being and development of children.

Since the creation of the Princess Charlene Foundation in 2012, more than 730,000 people, particularly children, have benefited from these three programmes in 34 countries.
